

Safety Data Sheet

DriFlow 10

SECTION 1: Identification

1.1 Product identifier

Product name	DriFlow 10
Product number	DF10

1.3 Recommended use of the chemical and restrictions on use

Friction reducing.

1.4 Supplier's details

Name	Downhole Chemical Solutions
Address	1 Cowboys Way #572 Frisco, Texas 75034

Telephone	469-466-1100
-----------	--------------

1.5 Emergency phone number(s)	1-888-255-3924 US (ChemTel) 1-813-248-0585 International (ChemTel)
-------------------------------	---

SECTION 2: Hazard identification

2.1 Classification of the substance or mixture

GHS classification in accordance with: (US) OSHA (29 CFR 1910.1200)

The material is not hazardous under the criteria of the Federal OSHA Hazard Communication Standard's (29CFR 1910.1200) implementation of the Globally Harmonized System (GHS), i.e., material is not a dangerous substance or mixture requiring GHS classification according to the US GHS regulations.

2.2 GHS label elements, including precautionary statements

Pictogram

Signal word : WARNING

Hazard statement(s)

May form combustible dust concentrations in air.

Precautionary statement(s)

Advice; Forms slippery/greasy layers with water.

Safety Data Sheet

DriFlow 10

- 2.3 Other hazards which do not result in classification**
Slip hazard from spills

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Hazardous components

No ingredients are hazardous according to OSHA criteria

Trade secret statement (OSHA 1910.1200(i))

*The specific chemical identities and/or actual concentrations or actual concentration ranges for one or more listed components are being withheld as trade secrets under the US regulation 29 CFR 1910.1200(i).

SECTION 4: First-aid measures

4.1 Description of necessary first-aid measures

General advice	Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.
If inhaled	No hazards which require special first aid measures. Remove to fresh air.
In case of skin contact	Wash with plenty of water for at least 15 minutes. Call a poison center or doctor if irritation develops or persists. Take off contaminated clothing and wash it before reuse.
In case of eye contact	Rinse immediately with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center or doctor if you feel unwell.
If swallowed	Call a poison center or doctor if you feel unwell. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

4.2 Most important symptoms/effects, acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11

4.3 Indication of immediate medical attention and special treatment needed, if necessary

No data available.

SECTION 5: Fire-fighting measures

5.1 Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Warning! Aqueous solutions or powders that become wet render surfaces extremely slippery.

5.2 Specific hazards arising from the chemical

Dust may form explosive mixtures in air

Safety Data Sheet

DriFlow 10

5.3 Special protective actions for fire-fighters

Wear self contained breathing apparatus for firefighting if necessary.
Use NIOSH/MSHA approved respiratory protection.

Further information

Use water spray to cool unopened containers. Spills produce extremely slippery surfaces.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Warning: Do not touch or walk through spilled material. Spills can create very slippery surfaces. Wear respiratory protection if necessary. Ensure adequate ventilation. Evacuate personnel to safe areas. For personal protection see section 8.

6.2 Environmental precautions

Do not contaminate water. Do not allow contact with soil, surface or ground water. Prevent product from entering drains.

6.3 Methods and materials for containment and cleaning up

Stop leak if you can do it without risk. Sweep up and shovel into suitable containers for disposal. No spark tools should be used.

Reference to other sections

For disposal see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Surfaces are very slippery from this product. Do not swallow. Do not breathe dust. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. See Section 8 for information on Personal Protective Equipment.

7.2 Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Keep container closed when not in use. Keep away from heat and sources of ignition. Avoid generating dust, fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

Unsuitable Materials : To avoid product degradation and equipment corrosion, do not use iron, copper, or aluminum containers or equipment. Avoid strong oxidizing agents.

Specific end use(s)

Apart from the uses mentioned in section 1 no other specific uses are stipulated. Stable under recommended storage conditions.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

If exposure limits exist, they are listed below. If no exposure limits are displayed, then no values are applicable.

8.2 Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands and face before breaks and immediately after handling the product. Avoid contact with skin and eyes. Do not breathe dust. Ensure that eyewash stations and safety showers are close to the workstation location. Ensure adequate ventilation.

8.3 Individual protection measures, such as personal protective equipment (PPE)

Safety Data Sheet

DriFlow 10

Handle in accordance with good industrial hygiene and safety practice.

Eye/face protection

Safety glasses with side shields or goggles. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection

Wear protective gloves, such as PVC or other plastic material. Consult manufacturer specifications for further information. Wash hands before and after handling product.

Body protection

Wear protective clothing. Work Clothing with full length sleeves and pants should be worn. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection

In case of inadequate ventilation wear respiratory protection. (filter P3) . Dust safety masks recommended where working powder concentration is more than 10 mg/m³

Thermal hazards

No data available.

Environmental exposure controls

Do not let product enter drains.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance/form (physical state, color, etc.)	White Solid
Odor	Odorless
Odor threshold	
pH	5.0 - 9.0 (.5 g/L)
Melting point/freezing point	> 150C
Initial boiling point and boiling range	Not applicable
Flash point	
Evaporation rate	Not applicable
Flammability (solid, gas)	No data available.
Upper/lower flammability limits	No data available.
Upper/lower explosive limits	Not expected to create explosive atmospheres.
Vapor pressure	Not applicable
Vapor density	No data available.
Density	600 - 900 kg/m ³
Relative density	
Solubility(ies)	Water Soluble
Partition coefficient: n-octanol/water	No data available.
Auto-ignition temperature	Does not self ignite
Decomposition temperature	> 150C
Viscosity	No data available.
Explosive properties	No data available.
Charge	Anionic
Oxidizing properties	The substance or mixture is not classified as oxidizing

Other safety information

No data available.

Safety Data Sheet

DriFlow 10

SECTION 10: Stability and reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

Stable under normal storage conditions.

10.3 Possibility of hazardous reactions

No data available.

10.4 Conditions to avoid

Avoid alkaline conditions which will degrade the polymer

10.5 Incompatible materials

Strong oxidizing agent

10.6 Hazardous decomposition products

Thermal decomposition may produce: carbon oxides, ammonia, nitrogen oxides
> 150C

SECTION 11: Toxicological information

Information on toxicological effects

Acute oral toxicity

Conclusion: The acute toxicological results displayed may not be the results of actual testing of this material but based on a similar tested material.

Acute toxicity estimate/> 5,000 mg/kg

Skin corrosion/irritation

Not irritating

Serious eye damage/irritation

Information on the product as supplied:

Not irritating

Respiratory or skin sensitization

Information on the product as supplied:

Not sensitizing

Germ cell mutagenicity

Conclusion: Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

Toxicity

Remarks: Ecotoxicological information provided is based on a structurally or compositionally similar product.
LC50/96 h/Oncorhynchus mykiss (rainbow trout)/Acute toxicity/OECD Test Guideline 203: > 100 mg/l

Remarks: fresh water

Safety Data Sheet

DriFlow 10

Remarks: Ecotoxicological information provided is based on a structurally or compositionally similar product.
EC50/48 h/Daphnia magna (Water flea)/Immobilization/OECD Test Guideline 202: > 100 mg/l EC50/10 d/

EC50/48 h/Acartia tonsa (copepod)/Immobilization/OECD Test Guideline 202: >100 mg/l

IC50/72 h/Green algae (Selenastrum capricornutum)/Growth inhibition/OECD Test Guideline 201: > 100 mg/l

Persistence and degradability

Biological degradability:

The polymeric ingredient is not readily biodegradable. Does not hydrolyse.

Bioaccumulative potential

Partition coefficient: n-octanol/water: < 0

Mobility in soil

Information on the product as supplied

None

Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

SECTION 13: Disposal considerations

Disposal of the product

Disposal should be in accordance with applicable Federal, State and local laws and regulations. Local regulations may be more stringent than State or Federal requirements.

Disposal of contaminated packaging

Dispose of as unused product. Recycle in accordance with local and national regulations.

SECTION 14: Transport information

DOT (US)

Not dangerous goods

IMDG

Not dangerous goods

IATA

Not dangerous goods

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question

SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards

Acute Health Hazard

Safety Data Sheet

DriFlow 10

California Prop. 65 Components

WARNING! This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.

Chemical name: Acrylamide

CAS number: 79-06-1

WARNING! This product contains a chemical known to the State of California to cause cancer.

Chemical name: Acrylamide

CAS number: 79-06-1

HMIS Rating
